Subject: Microsoft Settlement

To whom it may concern:

We think it's time the government settled its case against Microsoft. It may be coincidental but the antitrust announcement against Microsoft may have caused the economic downturn and the downward spiral of the stock market - especially the NASDAQ.

The persecution of this corporation was generated by such giants as AOL/Time Warner, who were jealous of its success. It's now time to stop this unnecessary and wasteful expense and get the country and economy moving forward in a positive manner.

Sincerely,

Robert H. Schmidt
